MEMORANDUM FOR: Assistant Director for ELINT

SUBJECT : Progress Report - Autotutor Program
(Teaching Machine)

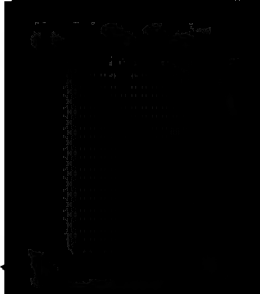

1. The OEL/DDS&T Autotutor program commenced on 15 July 1963. There are two Electronics Courses available for the participating students.

- a. First Year Electronics - five volumes, 9 reels; estimated 120-150 hours study time required.
- b. Basic Electronics - one volume, 1 reel; estimated 10-15 hours study time required.
- c. The attached nomenclature gives a more detailed breakdown of the two courses.

2. As of this date, the Program is operating on a full 8-hour schedule. Two hours per day have been allotted for each of the present four students. Future participants of which OEL has two waiting will be scheduled as time permits.

3. Individual progress on the present participating students is shown below:

25X1A

Student	Course	No. of Study Hrs.	Status in Course
